Notice to all Shipowners, Fishing Vessel Owners, Agents, Shipmasters, Skippers, Fishers, Yachtsmen and Seafarers

NeuConnect Interconnector

UK Post Lay Cable Burial and Protection

Date of Issue: 26/08/2026

Revision: 11

Project Overview

NeuConnect is a new high voltage direct current (HVDC) electricity transmission interconnector between the Isle of Grain, Kent, mainland UK, and Wilhelmshaven, Germany, routed through UK territorial waters (TW) and exclusive economic zone (EEZ). Prysmian Power Link (PPL) has been contracted to install the submarine cable. The proposed cable route in UK waters is shown in **Figure 1** below.

Figure 1 NeuConnect cable route (UK)

Notice of Activity

Mariners are advised that post-lay burial cable protection works are due to commence along the NeuConnect UK cable route. Works will be conducted by Prysmian PowerLink and supported by their subcontractors.

Locations and timeframes of all activities are set out in **Table 1**.

Rock placement remedial works on C2 and C3 are expected to begin from 3rd September. Dates are subject to change due to weather or operational requirements.

Rock placement will be carried out in C2 and C3 (**Table 3**) using the DEME Flintstone vessel (**Table 4**). Guard Vessels are planned to patrol the route sections where the cable is exposed (cable crossings) or where adequate burial depth is not achieved until cable protection works are completed. Details on guard vessels are provided in **Table 5**.

Table 1: Estimated schedule of NeuConnect post lay protection operations in the UK

Activity	Location Start KP	Location End KP	Commencement	Anticipated completion
Remedial Burial works (C1-C3)	2*	EEZ	15th September 2025	Complete
Remedial Burial works at KP16-KP18	16*	17*	May 2026	Complete
Remedial Rock Placement at C2 and C3	85	EEZ	5th September 2026	31st September 2026
Rock Placement C3 crossing points	199	EEZ	13th August 2026	Complete
Post-Works Survey*	12*	EEZ	As required, during and upon completion	Ongoing 2026

* Location and timing dependent on results of cable installation burial depth survey.

The planned operations will be conducted by the following vessels (**Table 3**):

- DEME Flintstone

Table 4: Details of vessels undertaking the works

Vessel Name	Vessel Master	Vessel Type	Vessel IMO No.	Vessel Owner:	Call Sign	MMSI No.
DEME Flintstone	Krijn Haasnoot	Fallpipe Vessel	9528433	DEME Offshore	PBZD	245861000

Guard Vessels are planned to patrol the route sections where the cable is exposed (cable crossings) or at inadequate burial depth until cable protection works are completed.

Vessels will shelter in Port of Sheerness in the event of weather downtime.

General Safety Advice

Mariners are reminded to navigate with caution and keep a continuous watch on VHF Ch 70 / 16 when navigating in and around the operational areas. Port of London VHF working channel is Ch. 69. Port of Medway VHF working channel is Ch.74. Sunk VTS VHF working channel is Ch. 14.

All vessels involved in operational activities will exhibit appropriate lights and day-time shapes prescribed by the International Regulations for Preventing Collisions at Sea, relative to operations. Vessels will also transmit an Automatic Identification System (AIS) message.

Safety Zones

During the works a 'rolling' 500m safety zone will be applied around all installation vessels and activities. Safety zones in the PLA area are subject to variation via PLA NtM, and may be less than 500m where agreed.

Contact Details

Enquiries regarding the contents of this Marine Notice, or any other matters, should be directed to project staff. Contact details are in the Table below.

Role	Name	Contact Details
SHEQ Representative	Sebastiano Scalisi	M: +39 366 67 42 107 @: sebastiano.scalisi@prysmian.com
Offshore Project Manager (Prysmian PowerLink)	Loretta Toma	M: +39 345 9733068 @: loretta.toma@prysmian.com
Fisheries Liaison Officer	Merlin Jackson	M: +44 7989 520484 @: merlinjackson@btinternet.com
